ABOUT US

ANCO KNOWS RENDERING EQUIPMENT

Founded in 1902, ANCO has continued to innovate and hone our expertise in the manufacturing of quality rendering equipment for over a century.

Today, our product line and production capabilities have doubled in size, and we maintain an inventory of replacement parts to ensure you have little to no downtime.

This is what we do, but why we do it makes all the difference.

Our ultimate goal is to be your long-lasting, collaborative partner. We will work with you to find the best solution for your rendering needs, whether that's implementing a new system, or working with your existing equipment. Our equipment transforms organic waste into something purposeful, so we have a positive impact on our environment.

Our longevity makes us experts, but our customer care makes us the right partner. We look forward to working with you.

SYSTEMS SOLUTIONS SPARES

PRODUCT IN

100+ COUNTRIES

100+ YEARS

For over a century, ANCO has been providing quality, dependable products to fit any need within the rendering industry.

- BINS & TANKS
- SHREDDERS & GRINDERS
- COOKERS & HYDROLYZERS
- DRYERS
- SEPARATORS
- PRESSES
- VAPOR HANDLING
- ODOR CONTROL
- PUMPS & CONVEYORS
- PLC & HMI AUTOMATION

SPARE PARTS

ANCO is determined to provide critical spare parts to ensure your plant runs smoothly and without downtime.

OUR COMMITMENT

Providing exceptional customer service with fast turnaround, deep industry knowledge and long-term partnerships.

Offering full system control with automation using the latest PLC and HMI color touch screen functionality.

PROUDLY MADE IN THE USA

ANCO LEVERAGES THE LATEST TECHNOLOGIES TO PROVIDE YOU WITH A SIMPLE CONTROL SYSTEM THAT'S EASY FOR ALL YOUR TEAM MEMBERS TO USE AND UNDERSTAND.

ANCO'S COLOR TOUCH SCREEN HMI (HUMAN MACHINE INTERFACE) provides clean graphics to help you visualize, monitor and maintain your process.

ANCO mounts the HMI's in **SMALL NEMA 4X PANELS** that can be located anywhere in the plant so you have control right where the action is. This allows you to see every step in the process and monitor many parameters of each device. ANCO even offers HMI solutions for outdoor applications.

ANCO'S control panels now use Ethernet communication between many of the components to monitor a large array of data and feed it back to the HMI so you can make informed decisions about your process.

ANCO provides PLC and non-PLC based logic control for all your equipment so the whole system is on line where you can see the performance, and guide its outcome.

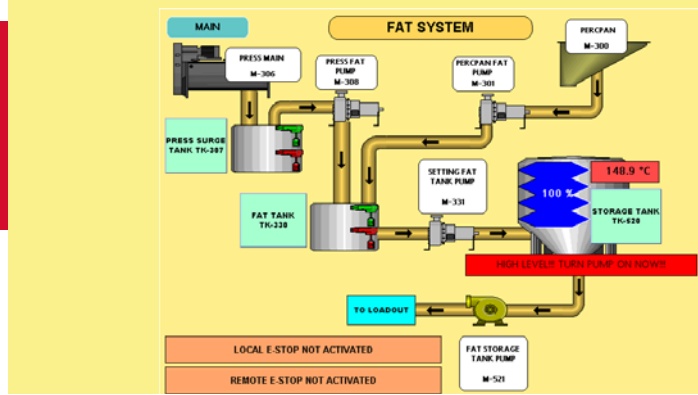

Where appropriate, ANCO will automate a series of steps in a process to simplify operator interaction.

ANCO CONTROLS are interactive, giving real time feedback. They can also provide messages that notify operators of items to be aware of and where actions need to be taken.

ANCO CONTROL SYSTEMS can manage all plant equipment including rendering, vapor condensing, blood processing and odor control or a portion of the equipment as directed by you.

ANCO offers robust features such as support of your system along with PLC updates, so no matter how far away you are, we are close to you.

ANCO CONTROL SYSTEMS can be enabled to provide remote monitoring from any web based device, i.e. phone, tablet, laptop or computer.
